Toma John Musa

FULL STACK WEB DEVELOPER

Email | GitHub | LinkedIn | Twitter | Portfolio | Phone: +2348108333398

SUMMARY

Passionate about coding and eager to learn, I am a full-stack developer with 2 years of experience who loves to build great software. Armed with a solid foundation in programming concepts and expertise in responsive design, Javascript, react, ruby, and ruby on rails, I am always striving to write clean, efficient, and maintainable code and am capable of ramping up quickly and efficiently.

SKILLS

Front-End: JavaScript, React, Redux, jQuery, HTML5, CSS3, Sass, Bootstrap
Back-End: Ruby, Rails, MySQL, PostgreSQL
Tools & Methods: Git, GitHub, Heroku, Netlify, Mobile/Responsive Development, RSpec, TDD, Chrome Dev Tools, jest, Figma, Adobe xd, Restful APIs, npm, devise
Professional: Remote Pair-Programming, Teamwork, Mentoring, proactive communication

EXPERIENCE

MICOROVERSE   Remote
Part-time Code Reviewer   September 2022 – Present
- Evaluated >10 pull requests a week submitted by student developers to ensure that the changes meet the project's quality standards, align with the project requirements, and are free of errors.
- Worked closely with the developers, and team members to ensure that the code changes meet the project's requirements and deadlines.

MICROVERSE   Remote
Mentor (Volunteer)   May 2022 – August 2022
- Mentored junior web developers, providing technical support through code reviews.
- Proposed improvements to code organization to improve code quality and overall performance.
- Provided advice and tips on how to maintain motivation to maintain longevity in the program.

HiiT   Abuja, Nigeria
Front-end Developer (Intern)   June 2019 – December 2019
- Led a team of 8 interns to design and develop a complete web application within 8weeks for an online finance organization that allows clients to save and invest their money.
- Through hands-on experience collaborating with a team of skilled software developers on-site, developed a high level of proficiency in working effectively and efficiently in a team environment.

EDUCATION

MICROVERSE   March 2022 – January 2023
Remote Full Stack Web Development Program, Full Time
- Spent 8 hours a day mastering algorithms, data structures, and full-stack development while simultaneously developing projects with JavaScript, React, and Redux.
- Developed skills in remote pair programming using GitHub, industry-standard git-flow, and daily standups to communicate and collaborate with international remote developers.

AHMADU BELLO UNIVERSITY   November 2015 – November 2021
B.Eng, Computer Engineering
- Became competent in solving algorithms and solving problems using engineering thinking processes.
- Developed a simulation of a truck platoon in AnyLogic simulation software based on the java programming language.
